

JOIN OUR TEAM!!

Design Intern

We are looking for an eager Design Intern to join our innovative, design development team.

You'll be a member of our brilliant design team, contributing to the design and development of specialty fixtures and wall systems utilized in retail environments. To be successful in this position, you should have some hands-on experience using computer-aided [CAD] software, with a strong drive to learn and develop additional skills with guidance.

At revolv+ we are team oriented and know during any given project; team work really does make the dream work. If you fit this description and you are enthusiastic about our company and its products, let's meet!

Responsibilities +

- Help design fixtures with instruction from team
- Craft models and drawings using CAD [SolidWorks + 20/20]
- Support editing of existing part and assembly drawings
- Develop skills to assist with design process including presentations, estimating, and production
- With instruction, preserve records for all projects
- Assist with secondary tasks to help all teams keep projects on schedule

Requirements & Core Competencies +

- Enrolled as a student in a design related field, i.e. Interior Design, Mechanical Design
- Experience using CAD; SolidWorks or 20/20 experience is a plus
- Knowledge in Microsoft Office
- General understanding of product development as well as construction
- Strong drive to learn and develop skills first-hand
- Ability to take and follow direction from others

Hourly rate to be determine based on available hours and duration of internship. Opportunities for further education is encouraged and provided with this role.

To apply for this role please email info@revolvplus.com
